Scenario Wins “A Clean Site is a Safe Site Award”.

The Cockram Scenario Project Team, working on a multi-billion dollar theme park project in Shanghai, were awarded first place in a recently implemented competition for excellence in Worksite Safety. The team have consistently been leaders in worksite safety and housekeeping among the 17 other general contractors on site. Scenario President, Malcolm Batten, emphasized that, “we operate with the knowledge that we must continually challenge and improve our safety performance as an integral component of our successful business strategy”

The Cockram Scenario Project Team has surpassed 200,000 man-hours with no lost time for worker injury or incident on this job and Cockram Projects regularly executes work with safety records in excess of a million man-hours. This record is demonstrable evidence of the success of the *STOP – Safety first, Think, Organize, Proceed* – program that is a foundation of the Cockram operational culture.

Tom Stapleton, Scenario Global Operations Manager, noted that “our safety protocols and culture have helped us stay on schedule and on budget by avoiding the cost and disruptions of injuries and accidents. Our clear and well observed safety plan has a self reinforcing benefit as individual team members are empowered to perform their work correctly the first time.”

Scenario operates out of offices in Shanghai, China; Dubai, U.A.E.; Hong Kong and Glendale, California. A full profile can be found at www.cockramscenario.com.
