Scenario Opens 55,000 sf Los Angeles Production Centre

Scenario has opened a new 55,000 sf Design and Production Facility in Los Angeles to provide comprehensive US Show Contracting services with a combined design and production team of over 50 professionals.

The new facility will support an expanding portfolio of US and International projects for Scenario. It will function as an integration facility, flexibly adapting to a variety of turnkey project types including large scale Rockwork, IP Figure Production, SAE and Show Set projects.

Malcolm Batten, President of Scenario, noted “Our goal is to be the focal point of the best resources in the industry for delivery of complex, high quality attractions and lands. Our Production Centre is an example of our long term commitment to elevating the standards and expectations of our industry.”

Scenario with parent Cockram has proven its capabilities in recent delivery of an entire themed land with a total contracted value of more than \$75M and is currently at work on projects of similar value.

Scenario operates out of offices in Los Angeles, California; Shanghai, China; and Hong Kong with new manufacturing and operational facilities opening up across Asia soon. A full profile can be found at www.cockramscenario.com.
