Scenario Welcomes Natasha Wells as Regional Operations Manager – Los Angeles

Company President, Malcolm Batten, today announced the appointment of Natasha Wells to Operations Manager of Scenario Los Angeles. Batten remarked “Natasha has been a driver of success in our Queensland Office since 2010. We welcome her to Scenario Los Angeles where we have built a 200 person staff of professionals working on multiple local and international theme park projects in less than 3 years. Natasha’s education as an engineer combined with her experience in team building and commitment to outstanding performance make her a natural fit as we expand and diversify.”

Natasha has delivered award winning projects and generated rapid growth in competitive markets by building strong teams and well-organized projects. She began her career as a graduate site engineer, quickly advancing through project engineer and project manager to construction manager.

Natasha brings 20 years of diverse construction experience to Scenario and has permanently relocated to LA. An avid cyclist and outdoor adventurer she also finds time to commit to volunteering in support of professional development recently as Vice President of NAWIC QLD (National Association of Women in Construction, Queensland Chapter).

Paul Buckley, VP of Scenario noted “Natasha is an ideal leader as we undertake large scale projects in Orlando, Los Angeles, Hong Kong, Beijing and Japan.”

About Scenario

Scenario operates out of offices in Los Angeles; Orlando; Shanghai; Dubai and Hong Kong. A full profile can be found at www.cockramscenario.com.

Scenario is an international Show Contractor providing comprehensive Project Delivery and Construction Management services for Attractions, Themed Lands and Theme Parks. Scenario’s history of successful projects for top tier customers is enhanced by the resources and experience of its parent, Kajima Corporation, a 175-year old international diversified GC with over \$17B annual sales.
